Architects And Engineers

‘LET EXPERTS BUILD YOUR DREAM’

WELCOME MESSAGE

We are a team of top-rated architects in Kochi, dedicated to creating spaces that are as functional as they are beautiful. At G'FACTREE, our strength lies in the seamless collaboration of expert architects, skilled structural engineers, and experienced site engineers—ensuring excellence from concept to completion.

We craft creative, smart, and sustainable designs that elevate everyday living, while our meticulous structural planning and on-site supervision guarantee precision, safety, and lasting quality.

From initial architectural ideas to full construction management, we handle every step of your project, allowing you to relax and enjoy watching your dream space come to life.

We believe your home should be the center of attention—stylish, meaningful, and built to last. Our designs blend innovation with practicality, reflecting our commitment to quality, sustainability, and client satisfaction.

“Let Experts Build Your Dream.”

ABOUT US

G'FACTREE Architects & Engineers, founded in 2016 by brothers Govind and Anand Unnikrishnan, is a leading architectural and engineering firm in Kerala committed to delivering innovative, sustainable, and aesthetically refined solutions. Built on a foundation of creativity, precision, and client-focused excellence, the firm quickly earned recognition for its ability to blend forward-thinking architectural design with engineering accuracy.

In 2020, Mrs. Honey Govind joined as Principal Architect, bringing fresh vision and elevating the firm's creative direction.

Today, G FACTREE thrives under the dynamic leadership of its founders, supported by a multidisciplinary team that includes architects for architectural design, structural engineers for structural planning, and site engineers for expert on-site supervision, ensuring seamless execution from concept to completion.

Together, we craft transformative, future-ready spaces that reflect personal stories, embrace sustainability, and stand the test of time—creating not just structures but meaningful experiences shaped around every client's dreams.

“Let Experts Build Your Dream.”
